## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-3, 5-13, and 15-20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

In regard to claims 1-3, 5-13, and 15-20, the prior art does not disclose an image processing device, method, and computer product for performing image processing with the combination of limitations specified in the claimed invention, specifically the limitations of:

wherein the image quality adjustment step includes the steps of: obtaining an aperture value used at the time of generation of the image data from the aperture information, and judging whether the aperture value was manually set by a user, and when it is judged that the aperture value was manually set, and when the aperture value is in a predetermined range of at least a portion of an entire possible range of the aperture value, executing sharpness adjustment that is stronger than the case where the aperture value was set under standard shooting conditions of the image generator, as stated in claims 1, 9-11, 19, and 20.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
